## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-3, 5-7, 9, 10, and 13-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: Taylor 20010020189 fails to disclose a plurality of spikes mounted tangentially on the inner basket adjacent mesh openings in the outer basket. The closest prior art is Cassell 6,666,873 in which flexible spikes are used to attach an anastomotic ring to tissue, however, these spikes are not actually tangentially mounted and are instead flexible in a tangential direction. Taylor further fails to disclose a vacuum source and applying a vacuum to the connector to draw stomach lining into the plurality of openings in the outer element, nor a pressure source and applying pressure to the connector to disengage stomach lining from the retention members and the openings in the outer element. The prior art of record and the prior art at large, alone or in combination, does not remedy the deficiencies of Taylor and thus the claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
